① About the UNIMARC Core Activity

Strategic goals 2007-2009 ▶▶▶▶

Goal 1. Ensure the maintenance and development of UNIMARC, in alignment with other MARC formats and new bibliographic standards.

Goal 2. Enhance the portability of UNIMARC data to the Web environment and the interoperability of UNIMARC with other data standards

Goal 3. Improve the updating and availability of UNIMARC documentation

Goal 4. Advance knowledge of UNIMARC and its usage and promote mechanisms and actions towards sharing of expertise and improvement in user support

Strategic goals 2010-2012 ▶▶▶▶ **minor changes**

THE IFLA UNIMARC CORE ACTIVITY – MAJOR CHARGES

- ▶ **Maintenance and promotion of the UNIMARC formats
bibliographic, authorities, holdings, classification**
- ▶ **Alignment with other standards
MARC21, ISBD, ISBN, ISSN, FRBR, FRAD, IME-ICC, RDA...**

UNIMARC Core Activity (UCA)

Succeeding to the IFLA UBCIM Core Activity, the IFLA UNIMARC Core Activity (UCA) was established in 2003 with the responsibility for the maintenance and development of the Universal MARC format (UNIMARC), originally created by IFLA to facilitate the international exchange of bibliographic data.

The purpose of UCA is to coordinate activities aimed at the development, maintenance and promotion of the UNIMARC format, now a set of four formats - Bibliographic, Authorities, Classification and Holdings - and related documentation, through the Permanent UNIMARC Committee (PUC). For a brief overview of the history, aims and general structure of UNIMARC see [UNIMARC: an introduction. Understanding the UNIMARC format.](#)

20 March 2010

UNIMARC 2010 - Lyon, France

Following the meetings in Lisbon (2006) and Florence (2008), the UNIMARC Core Activity organizes the **3rd UNIMARC Users Group Meeting** in France, on **March 31 2010**.

This international meeting is an important opportunity to meet UNIMARC users from several countries and discuss experiences and prospects.

The [Programme](#) includes 13 presentations by speakers from 8 countries (Algeria, France, Italy, Morocco, Portugal, Russia, Tunisia and the UK). The meeting is followed by the 3rd Comité français UNIMARC Study Day, on April 1st. [Registration](#) for both events is free.

*** Permanent UNIMARC Committee (PUC)**

Permanent UNIMARC Committee (PUC)

The **Permanent UNIMARC Committee (PUC)** was formed in 1991, in accordance with resolution No. 5 issued at the Seminar on Bibliographic Records held in Stockholm before the IFLA General Conference, August 1990. The main objective of the PUC is to control the UNIMARC format in accordance with the principles of Universal Bibliographic Control.

The PUC consists of a minimum of 7 and no more than 9 standing members, who are experts in UNIMARC and come from different countries and institutions having active UNIMARC experience. A maximum of 12 corresponding experts may be appointed for a two-year term by the Committee in consultation with the IFLA UNIMARC Core Activity to represent other geographical areas of UNIMARC expertise.

Members

- ★ **Chair:** Alan Hopkinson, UK
- ★ **Vice Chair:** Jay Weitz, USA
- ★ Rosa Galvão, Portugal
- ★ Cristina Magliano, Italy
- ★ Olga Zhlobinskaya, Russia
- ★ Ioanna Demopoulous, Greece
- ★ Agnès Manneheut, France
- ★ Liuba Buckien, Lithuania
- ★ **Honorary member and special consultant:** Mirna Willer, Croatia

Since 2003 the PUC has been functioning within the [UNIMARC Core Activity](#). For earlier UNIMARC activities see the [Universal Bibliographic Control and International MARC Core Activity \(UBCIM\)](#).

Terms of Reference

The main objective of the PUC is to maintain and develop the UNIMARC formats. In this role, the PUC

- ★ Advises the IFLA/CDNL-ICABS Alliance for Bibliographic Standards (ICABS) on all matters concerning UNIMARC including promotion, training, research, testing and priorities and strategies for development in coordination with the office of the UNIMARC Core Activity.
- ★ Maintains the UNIMARC format by discussing proposals documented by the UNIMARC Office on behalf of UNIMARC users and officially approving changes to the format. It liaises with Division IV on matters of mutual interest.

Activities

The Permanent UNIMARC Committee meets once a year, usually at the UNIMARC Core Activity venue, in Lisbon, Portugal. Reports from the meetings are regularly published in International Cataloguing and Bibliographic Control (ICBC) and also available online:

- * [20th PUC Meeting, 2009 March 9-10](#)
- * [19th PUC Meeting, 2008 March 12-13](#)
- * [18th PUC Meeting, 2007 March 12-14](#)
- * [17th PUC Meeting, 2006 March 22-24](#)
- * [16th PUC Meeting, 2005 March 7-9](#)
- * [15th PUC Meeting, 2004 March 15-17](#)
- * [14th PUC Meeting, 2003 February 3-4](#)

Publications

The PUC is responsible for the preparation and dissemination of IFLA publications and other documentation regarding UNIMARC. See the complete information regarding [UNIMARC publications](#).

specification for holdings information pertaining to a bibliographic item. The work was carried out during the period of 2000-2003 and a final draft was posted for world wide review in 2003. The present version is the result of received comments, accepted at the PUC meeting of 2004, with some changes introduced at the PUC meetings

UNIMARC Manual

Holdings Format

Version 1

Recommended by the Working Group on the UNIMARC Holdings format
Approved by the Permanent UNIMARC Committee (PUC)

UNIMARC Holdings

In late 1999, PUC appointed a working group to develop a UNIMARC specification for holdings information pertaining to a bibliographic item. The work was carried out during the period of 2000-2003 and a final draft was posted for world wide review in 2003. The present version is the result of received comments, accepted at the PUC meeting of 2004, with some changes introduced at the PUC meetings that took place in 2005 and 2006. It was first published in December 2006, and was subject to corrections in 2007.

See just the 2007 corrections at: [UNIMARC Holdings List of Changes 2007.pdf](#)

**To complete
development by 2011**

UNIMARC Classification

The UNIMARC Classification Format is still in progress and is aimed at the management and authority control of classification data. It was prepared by a working group appointed by the Permanent UNIMARC Committee, in 1997, as a follow-up of a document produced by another IFLA group, about the *Requirements for a Classification Format*, in 1996. The present version was posted for world wide review in 2000. The draft concise version of the UNIMARC Classification Format is available online:

[Concise UNIMARC classification format](#) (2000.10.13)

UNIMARC Guidelines

Since 1999 the PUC has developed a series of guidelines for the application of UNIMARC with particular bibliographic materials or cataloguing policies. Seven guidelines were already published and are available online:

MAPPINGS

User controlled Generic MARC converter. A generic toolkit for ISO2709 compatible MARC formats to enable libraries to create rules based systems to convert records between national MARC formats through UNIMARC. It was completed in 1997, funded by the EU's Telematics Applications Programme (DGXIII-E). The original version of the software was further developed and adapted by Ere Maijala, of the National Library of Finland. Testing at the National Library of Finland and the British Library was followed by the further releases. Current release is **V.13.3**. Documentation available: [Guide to USEMARCON](#) (v.1.12, 2001) and [USEMARCON Manual](#) (v.3.10, 2008).
