# A Diamond OA Discovery Kit

A "toolbox" of **elements** derived from the challenges and needs of our researchers that can be used nationally.

For librarians, policy advisors, research support officers, faculty liaisons, subject specialists, etc., to share knowledge and be able to **help researchers navigate the world of Diamond OA publishing**.

# Which elements?

Some examples:

| | |
|---|---|
| Definitions: What is Diamond OA? | Awareness |
| Workshops on publishing and publication ethics | Awareness |
| Lists of Diamond OA journals | Visibility / Discovery |
| Advertising Diamond OA initiatives | Awareness |
| Provide tools to assess quality in Diamond OA services/journals | Quality |
| Provide data on Diamond OA output | Data |

# Mentimeter time!

# Group activity 1: Discussion

Instructions:

- 45 min
- 5 groups
- 1 element per group
- 1 spokesperson per group (for a short 5 min presentation)
- Offline discussion: guided questions and printed template on your table

Pick the element that interests you the most, but please make sure that the groups are even.

**15
min**

# Break

# Group activity 2: Hands-on

Design your element "hackathon style"

- 45 min
- Each group has an assigned **Google Drive folder**
- You discussed the element, now it is time to put it into practice: **how would you design the final product of your element**?
- **Upload the result** to your group's folder!

⚡ **Lightning talks** ⚡

Instructions:

- 5 spokespersons
- 5 min per person
- Explain what your group discussed and what you co-created

**strengthening diamond open access in the netherlands**

15 min

# Break

# Plenary Discussion: Strategies for impact

# Closing remarks
